Company Profile

Since its establishment, SonoScape has been committed to providing high quality medical equipment for the healthcare sector. SonoScape specialized in the development and production of diagnostic solutions. Through innovation SonoScape continues to not only improve the efficiency and accuracy of healthcare solutions, but also to increase a sense of comfort for the patient and clinician. Since 2002, the innovative technology of SonoScape has benefited millions of people and we are dedicated to continue providing more effective and accessible healthcare solutions to the world.

Quote from Frost & Sullivan FROST & SULLIVAN

"The Frost & Sullivan Award for Growth Leadership is presented to the company that has demonstrated excellence in capturing the highest annual compound growth rate for the last 3 years... The sales of ultrasound devices contribute an overwhelming proportion of total revenue, helping the company strengthen its leading position to outperform the competitors in the marketplace. With increasing penetration of mid-to high-end ultrasound devices, SonoScape is expected to see growth potential in the future... "

Company Milestone

2002: Company Founded in Shenzhen, China

2003: Released SSI-1000: the 1st 15" Portable Color Doppler system in China

2004: Released SSI-2000: the 1st PC platform Color Doppler system in China

2005: Received the "High Technology Company" award from the PRC government

2007: Received "CHINA TOP BRAND" award in the Medical Equipment Industry

2007: Released the 1st Real time 4D ultrasound system in China

2008: Received "European Entrepreneurial Company 2008" award from FROST & SULLIVAN

2008: Received "Flagship Company" award in the Medical Equipment Industry in China

2009: Received "Product Quality Leadership Award 2009" from FROST & SULLIVAN

2011: Received the Reddot 2011 Product Design Award for S20 in Essen, Germany

2013: Received "Ultrasound Market Growth Leadership Award, 2013" from FROST & SULLIVAN

2014: Received the iF product design award 2014 for S9 in Munich, Germany

2014: Received "Company of the Year in Ultrasound Market, 2014" from FROST & SULLIVAN

2016: Received "Product Innovation In Electronic Endoscopy Market' from FROST & SULLIVAN

2017: Received the iF product design award 2017 for X5 in Munich, Germany

Efficient Experience

The new platform provides users a more efficient scanning process, due to its advanced technology. Since X5 aims to achieve an excellent imaging quality, these technologies contribute to produce images with high resolution and penetration, presenting a large amount of information.

- Multi-beam processing technology
- Spatial compound imaging
- μ-Scan image processing technology
- Pulse inversion harmonic imagin

Flexible Mobility

- 15.6 inch monitor in high definition
- Wide range folding angle and viewing angle
- Extended connector to 3 probes
- Noiseless system
- Quick boot up time
- Built-in battery support 3 hours continuous scanning
- Integrated trolley with height adjustment

User Friendly

- One Button automatic optimization
- Large image display region
- Anti-reflective screen and auto brightness adjustment
- User-defined Operations

Extensive Applications

Crystal clear imaging quality with professional transducers makes X5 ideal for various applications.
